The S-5!® Clamp Assortment

S-5!®
The Right Way!

The Clamps from S-5! come in a variety of options with M8 thread on top and a M8 Stainless Steel bolt. The normal S-5! clamps with two bullet-nosed, stainless steel screws for attachment to seams are used for heavy demands e.g. fall protection systems and in the ColorGard® snow retention.

The S-5! Mini-Clamps with one set-screw are utilized when multiple clamps are required for the attachment of rigid objects, to the seams. For further information, mounting instructions and test results concerning the holding strength please contact us or see on www.rooftech.de.

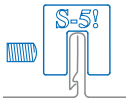
E-Clamps for Double Folded Seams
For double folded standing seam roofs made of aluminium, titanium-zinc, stainless steel or coated galvanized steel. **Official approved by the DIBt.: Z-14.4-719.**

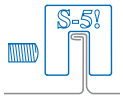
E-Clamp

E-Mini

E-Mini-FL

S-Clamps for Snap Lock and Angle seams
With a bigger opening slot of 14mm the S-Clamps are extremely versatile for a big number of industrial seams such as Snap-Lock or Snap-together profiles, Fischer Kliptec, Privé, etc. and angle seams.

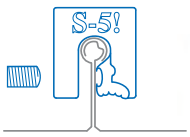




S-Clamp

S-Mini

Z-Clamps for Round Bulb Seams
Z-Clamps are specially developped to fit profiles having round "bulb" seams with a 23mm diameter such as roofs of Kalzip®, Bemo®, Aluform, Euroseam® or Kingspan. **Official approved by the DIBt.: Z-14.4-719**.

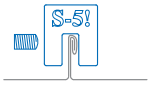


Z-Clamp

Z-Mini

Z-Mini-FL

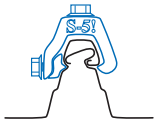
B-Clamps for Copper roofs
The B-Clamp and B-Mini are the right choice for copper double folded seam roofs. The "B" stand for Brass, the material of the clamps.



B-Clamp

B-Mini

S-5-K-Grip Clamps for Domitec, Klip-lok and similar profiles
The S-5-K-Grip Clamps fit in combination with different inserts on a multitude of profiles i.e. Lysaght KLIP-LOK, Safintra Saflok or Domitec and provide high holding strength.



K-Grip-Clamp

K-Grip-Mini

Multi-Trapezoidal Bracket MTH with self-adhesive sealing strips and mounting bracket with slotted hole M10. Material: stainless steel. For mounting on many different trapezoidal sheet metal and sandwich profiles up to 43mm top chord width. Fixing with 4 Bi-Metal drilling screws (optional). **Official approved by the DIBt.: Z-14.4-706.**

S-5!® provides several other clamps and brackets to fit on different profiles all over the world. If you didn't find a solution above please feel free and contact us for further information.
