# **S-5!® Innovations and Changes up from July 2020**

**July 2020**

Dear Ladies and Gentlemen,

**At the S-5! products, the following innovations and changes will be introduced from July 2020.** After the current stock of the respective article has been sold off, we will also make the changes. For this reason, we will coordinate the changes with you when you place your order and inform you with the order confirmation.

- In the future the **S-5!® Mini-Clamps will be delivered without M8x16 stainless steel screws.** The changeover will take place after the sale of the previous boxes. **The M8-screws can then be ordered separately from us, packed with 100 pieces per box.**
- The S-5!® products will be partly delivered with **new and smaller packaging units** in the future. This is due to stricter weight restrictions per packaging unit in the USA. The conversion takes place after the sale of the previous boxes.
- In future the **set screws of the S-5! clamps** will be supplied **with Torx 30 female thread. A mounting bit (Torx T30)** will be supplied in each box as before. The tightening forces remain unchanged.
- **The S-5!® PV-Kit-Alu was replaced by the new S-5!® PV-Kit 2.0-MidGrab.** This has a module support disc made of stainless steel and the new module clamp is delivered pre-assembled. The PV-Kit 2.0 MidGrab module clamp can also be used as a middle and edge clamp. This saves considerable installation costs.
- **New in our range of S-5!® clamps are the Mini clamps for the 1" and 1.5" Nail Strip profiles.**
- On request, we can import S-5!® products not in stock directly from S-5!® USA - even in small quantities at short delivery time by air freight. Please call us for quote.

If you would like further information, samples or advice on a project, please do not hesitate to contact us. We are looking forward to your message or call.

Best Regards

Peter Strobel

# The Clamp Assortment 2020

The Clamps from S-5!® come in a variety of options with M8 thread on top and a M8 Stainless Steel bolt or with flange. **The S-5!® clamps with two bullet-nosed, stainless steel set screws** for attachment to the seams are used for heavy demands e.g. fall protection systems and in the ColorGard® snow retention.

**The S-5!® Mini Clamps with one set-screw** are utilized when multiple clamps are required for the attachment of stiff objects to the seams. **From July 2020 the S-5! Mini Clamps will be changed over step by step to be delivered without M8 Stainless Steel screws. These can be ordered separately.**

## E-Clamps for Double Folded Seams

For double folded standing seam roofs made of aluminum, titanium-zinc, stainless steel or coated galvanized steel. **Official approved by the DIBt.: Z-14.4-719.**

## S-Clamps for Snap Lock and Angle Seams

With a bigger opening slot of 14mm the S-Clamps are extremely versatile for a big number of industrial seams such as Snap-Lock or Snap-together profiles from Fischer-Kliptec, Schlebach, Prive-Stylinov, Ruukki or similar.

## Z-Clamps for Round Bulb Seams

Z-Clamps are specially developed to fit profiles having round "bulb" seams with a 23mm diameter such as roofs of Kalzip®, Bemo®, Aluform, Euroseam® or Kingspan. **Official approved by the DIBt.: Z-14.4-719.**

## B-Clamps for Copper roofs

The B-Clamp and B-Mini are the right choice for copper double folded seam roofs. The "B" stand for Brass, the material of the clamps.

## N-Mini and N1.5-Mini Clamps for Nail Strip Seams

The new N-Mini clamp was designed for applications on 1" (25mm) high and the N1.5-Mini clamp for 1.5" (38mm) high nail strip profiles and metal roof types with similar profiles.

**Multi-Trapezoidal Bracket MTH** with self-adhesive sealing strips and mounting bracket with slotted hole M10. Material: stainless steel. For mounting on many different trapezoidal sheet metal and sandwich profiles up to 43mm top chord width. **Official approved by the DIBt.: Z-14.4-706.**

We keep the S-5® products that are common on the European market in stock. All not stocked S-5!® products can be imported from S-5® USA, after customer request – even in small quantities and in short time with air freight. Please call us for quote.
