

| BIRDBLOCKER - TOOL

BirdBlocker is the professional solution to guard birds from nesting under solarpanels.

Our specially designed tool will make installation even faster and easier. It also aids in the more secure fastening of the system to the panels because it allows to keep the strips perfectly parallel to the panel during the installation process.

| ADVANTAGES:

- Using the BB-Tool reduces strain on the fingers during installation.
- The BB-Tool provides better handling and guidance during installation for a more durable clamping.
- The BB-Tool comes with a hole pre-drilled, enabling installation of a keyring.
